

D&L Education Solutions

BETTER SKILLS. BETTER WORK.

LIGHT/HEAVY DUTY DIESEL TRAINING

Training for **Tomorrow**

Today's diesel technician requires a comprehensive set of knowledge and skills that need to be constantly updated and improved. Whether it's teaching foundational job skills, enhancing effectiveness through refresher courses or learning new skills, D&L is committed to helping our clients grow and thrive in today's competitive marketplace.

The **D&L** Difference

Our team is made up of educators who are passionate and dedicated to technical training. Their skills and background expertise allow them to create and deliver world-class curriculum and training to instructors and employees – helping them to better understand concepts, stay engaged, and improve their skills.

Our custom turnkey programs allow companies to seamlessly integrate critical skills into their existing training programs quickly and cost-effectively - ultimately increasing the bottom line.

TRAINING SITE ASSESSMENT

Comprehensive evaluation of training site to maximize your educational workspace.

CUSTOM CURRICULUM DEVELOPMENT

Custom curriculum created by our world-class educators for your educators and employees.

FLEXIBLE TRAINING OPTIONS

Training can be offered onsite, offsite or online by our team or your instructors.

COMPETITIVE COST ADVANTAGE

Effectively designing low-cost solutions to increase efficiency and your bottom line.
